COMPANY PROFILE

Welcome to KSH INFRA, a dynamic and forward-thinking Real Estate development brand in the Industrial & Logistics infrastructure.

At KSH INFRA, a trademark owned by Waterloo Motors Pvt. Ltd., we are dedicated to revolutionizing the landscape of industrial and logistics infrastructure development in India. Our commitment to excellence and sustainability is reflected in everything that we do.

KSH INFRA, continues to set industry benchmarks, leading the way in sustainable, efficient, and innovative infrastructure development. Our unwavering focus on customer satisfaction, environmental responsibility, and operational excellence defines who we are and what we strive to achieve.

> We operate on a Buy-Build-Lease-Exit business model with the aim of transferring the ESG legacy to esteemed global investors who share our values and commitment to ESG standards.

OUR VISION AND MISSION

Our vision is to create highly functional, transformative, carbon-neutral, and sustainable Industrial and Logistic park solutions across key markets in India.

Our mission is to become *the* preferred industria real-estate partner to the Manufacturing, logistics, E-commerce, and attracting institutional capital by demonstrating excellence in corporate governance.

OUR VALUES

The philosophy of sustained improvement is at the heart of every offering. KSH INFRA works closely with vital industry bodies to deploy best-in-class strategies without compromising on an accountable, qualified, and committed workforce.

Our goal is to create Industrial & Logistics parks that echo those very values. Operational excellence underscores every thought and action at KSH INFRA, and there's an unrelenting focus on building enduring, synergistic relationships with our clients.

KSH INFRA

CORE BUSINESS AREAS

SUSTAINABLE DEVELOPMENT

At the heart of our business philosophy is a strong commitment to sustainable development. We integrate green practices and technologies in our projects, aiming to minimize environmental impact and promote energy efficiency.

LOGISTICS SOLUTIONS

Specializing in the development of high-quality, functional logistics facilities, we cater to a diverse range of clients, including e-commerce players, 3PL companies, and manufacturers. Our facilities are designed to maximize efficiency, safety, and sustainability.

INDUSTRIAL PARKS

We develop state-of-the-art Industrial Parks that serve as thriving hubs for various industries. These parks are equipped with modern amenities, robust infrastructure, and are strategically located to ensure optimal connectivity and accessibility.

CUSTOMIZED INFRASTRUCTURE

Understanding the unique needs of our clients, we offer tailor-made infrastructure solutions. Our expertise extends to building specialized manufacturing facilities, storage areas, and other industrial constructions designed to meet specific client requirements.

MESSAGE FROM OUR LEADERS

ROHIT HEGDE
MANAGING DIRECTOR

Dear Stakeholders,

As we navigate through an era of unprecedented challenges and opportunities, KSH INFRA, under the stewardship of Waterloo Motors Pvt. Ltd. (our Hold CO.), stands at the forefront of integrating sustainable practices into the core of our business operations. Our journey towards sustainability is not just a corporate mandate; it is a commitment we embrace wholeheartedly at every level of our organization.

This year marks a significant milestone in our journey. We have not only continued to expand and innovate in our services but have also made remarkable strides in our Environmental, Social, and Governance (ESG) initiatives. Our vision of creating highly functional, transformative, carbon-neutral, and sustainable Industrial & Logistics park solutions in India guides every decision and action of ours.

In the environmental domain, we have conscientiously worked towards reducing our carbon footprint, embracing energy-efficient practices, and contributing to a greener planet.

On the social front, our focus has been on enhancing the well-being of our workforce, nurturing community relations, and upholding the highest standards of ethics and integrity.

Our governance initiatives reflect our unwavering commitment to transparency and accountability. We have strived to ensure that every process, policy, and practice aligns with our core values and adheres to the highest standards of corporate governance.

This report is a testament to our dedication and the collective efforts of our team, partners, and stakeholders. The path to sustainability is an ongoing journey, and we are committed to continuous improvement and innovation.

We thank you for your trust and support and look forward to your continued partnership as we shape a sustainable, equitable, and prosperous future.

SUNDARESAN VAIDYANATHAN
CEO

Dear Stakeholders,

I am honored to present KSH INFRA's commitment to Environmental, Social, and Governance (ESG) initiatives, under the aegis of Waterloo Motors Pvt. Ltd.

This year has been pivotal in shaping our approach towards integrating sustainability into every facet of our business.

Our vision at KSH INFRA is not just about building state-of-the-art Industrial & Logistics park solutions; it is about pioneering a sustainable future for our industry. Our ESG mission drives us to embed sustainability, equity, and ethical practices into our core decision-making processes. This report is a reflection of that enduring commitment.

Environmentally, we are pushing the boundaries to create carbon-neutral infrastructures, adopting innovative technologies, and advocating for responsible resource management. Socially, we are dedicated to uplifting our communities, enhancing the welfare of our employees, and fostering a culture of inclusivity, trust and respect.

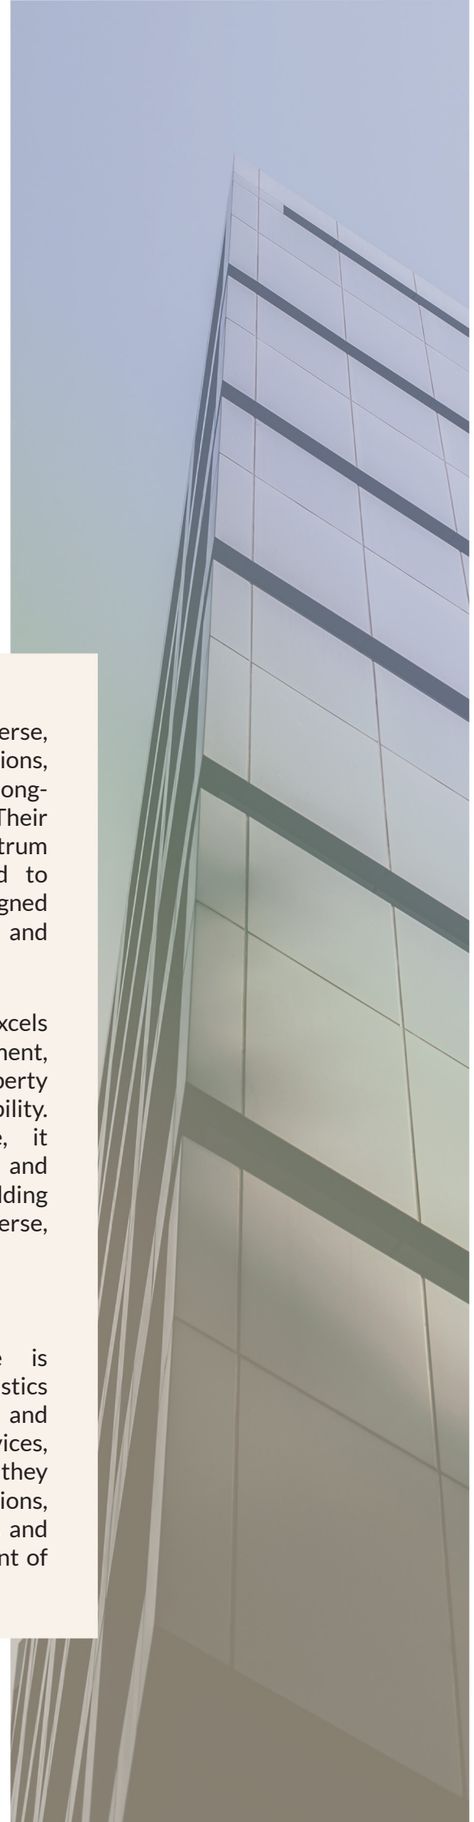
In terms of governance, transparency and accountability remain our cornerstones. We are continually refining our processes and engaging with our stakeholders to ensure that we not only meet their expectations but also exceed them in every way.

This journey towards sustainability is challenging yet invigorating. With the collective effort of our team, partners, and stakeholders, we are making significant strides. Your support and collaboration are invaluable to us as we continue to navigate this path.

As we look to the future, we are excited about the possibilities that lie ahead. Together, we are committed to creating a legacy of sustainability and innovation, ensuring that KSH INFRA contributes positively to our planet and society in all our endeavours.

OUR PARTNERSHIPS AND ACHIEVEMENTS

KSH INFRA has successfully delivered 2.2 Mn. sq. ft. of green infrastructure parks for major multinational companies, such as Kawasaki Motors, Jabil, Faurecia, Gedia, Rieter, Linamar, Saleri, Kimberly Clark, and others. After having successfully partnered with prominent global private equity investors such as Pacific Century Group, Morgan Stanley Real Estate Investing, and Mapletree Investments, KSH INFRA has recently formed a Joint Venture with IndoSpace to develop 10 Mn. sq. ft. in key Indian markets.



Morgan Stanley provides diverse, specialized global client solutions, leveraging its vast resources for long-term investment performance. Their independent teams offer a broad spectrum of strategies and styles, dedicated to delivering portfolio solutions aligned with specific environmental, social, and governance (ESG) objectives.

Based in Singapore, Mapletree excels in global real estate development, investment, capital, and property management, emphasizing sustainability. Committed to stakeholder value, it integrates development, investment, and management roles, consistently yielding high returns and acclaim for its diverse, award-winning real estate projects.

Established in 2007, IndoSpace is India's leading Industrial Logistics real estate investor, developer, and manager. Committed to quality services, sustainability, and governance, they innovate and deliver top-tier solutions, earning the trust of over 140 MNCs and industry leaders with the development of 58 Mn. sq. ft..

RECOGNITION

At KSH INFRA, our focus is on fostering a sustainable future through carefully controlled initiatives. Each project is designed and developed bearing Green Building norms in mind, supported by EDGE or IGBC Certifications. Our aim is to create top-quality, efficient, and sustainable Industrial & Logistics parks. As India evolves as a global super-power, it's crucial for industries to prioritize responsible infrastructure for future generations, and KSH INFRA is committed to contributing to this cause.

ECONOMIC PERFORMANCE

This section of the ESG report provides an overview of our economic performance. We aim to transparently communicate our financial health, contributions to economic development, and strategies for sustainable value creation.

Our company's financial records undergo annual audit conducted by one of the big 4 audit firms as per their standard guidlines and procedures.

EXECUTIVE SUMMARY

PURPOSE AND KEY HIGHLIGHTS

This report underscores our unwavering commitment to integrating Environmental, Social, and Governance (ESG) principles into the core of our business. It aims to transparently communicate our ESG journey, showcasing the strides we’ve made and the goals we aspire to achieve. Our purpose is to outline our dedicated efforts towards creating a sustainable, equitable, and ethically governed future, and to highlight our key achievements along the journey.

KEY HIGHLIGHTS

ENVIRONMENTAL STEWARDSHIP:

Progress towards carbon neutrality, including the adoption of renewable energy and efficiency measures in all our Industrial & Logistics parks.

SOCIAL RESPONSIBILITY:

Enhanced community engagement, employee skill development, and a focus on health and safety, contributing positively to societal growth.

GOVERNANCE EXCELLENCE:

Implementation of robust governance practices, including transparent reporting and adherence to high ethical standards.

FUTURE COMMITMENTS:

Our roadmap for continuous ESG evolution, with a focus on innovation and sustainable development aligned with global standards.

This report is a testament to our belief that responsible business practices are not just a necessity but a driving force for positive change. We invite our stakeholders to join us on this transformative journey.

ABOUT THIS REPORT

01 REPORTING FRAMEWORK

For this inaugural report, given the unique'buy-build-lease-exit'business model, we have adopted a unique assessment approach.

To kickstart our sustainability reporting journey, we are disclosing our impact with reference to the Global Reporting Initiative ("GRI") framework.

02 REPORTING BOUNDARIES/ METHODOLOGY

The report encompasses ESG performance of all KSH INFRA controlled operations.

03 REPORTING PERIOD

Environmental information assessed is of the last completed project between 2019-2022. All other information covers sustainability performance of KSH INFRA brand for FY 2022-23.

OUR ESG STRATEGY

In an era where sustainable practices are a way of life, KSH INFRA, embraces its role as a leader in environmental, social, and governance excellence. Our ESG strategy is part of our DNA and therefore woven into the fabric of our business operations. We believe in creating a sustainable future while delivering exceptional value to our stakeholders, combining innovation with responsibility.

ENVIRONMENTAL SUSTAINABILITY

Implementing innovative and sustainable practices to reduce the environmental impact and achieve carbon neutrality.

SOCIAL RESPONSIBILITY

Enhancing the well-being of our employees and communities, with a focus on creating inclusive, safe, and empowering workplaces.

GOVERNANCE EXCELLENCE

Upholding the highest standards of transparency, accountability, and ethical business practices.

Actual Park Photo

COMMITMENT AND ACTION IN OUR ESG JOURNEY

Our journey in ESG is characterized by a deep commitment to tangible actions that reflect our core values. At KSH INFRA, we understand that true sustainability extends beyond environmental conservation to encompass social equity and robust governance. We are dedicated to making impactful changes, not just within our organization but also in the larger communities we serve. Our approach is dynamic and responsive, ensuring that we remain at the forefront of ESG excellence.

Action on Environmental Goals: Adopting renewable energy, reducing emissions, and promoting resource efficiency in our projects.

Advancing Social Impact: Engaging in community development, skill enhancement for employees, and ensuring health and safety standards.

Strengthening Governance: Regular audits, compliance with evolving regulations, and transparent stakeholder communication.

INTEGRATION OF ESG INTO CORPORATE STRATEGY

The integration of ESG into our corporate strategy is a deliberate and strategic choice to ensure the longevity and resilience of our business. We have embedded ESG considerations into every facet of our decision-making process:

01 **Strategic Planning:** ESG objectives are integrated into our business goals, influencing both long-term vision and short-term operational decisions.

02 **Risk Management:** By recognizing ESG factors as critical components of our risk management framework, we mitigate potential adverse impacts on our business and society.

03 **Innovation and Competitiveness:** ESG is a driver of innovation, helping us to stay competitive by adapting to global sustainability trends and client expectations.

04 **Stakeholder Engagement:** We actively engage with stakeholders to align our ESG efforts with their values and expectations, thereby strengthening relationships and ensuring mutual growth.

Our approach to ESG is holistic and dynamic, evolving with global trends and local insights. We are committed to continuous improvement and transparent reporting, ensuring our ESG strategy remains at the core of our business model, propelling KSH INFRA to new heights.

RISK MANAGEMENT: BUSINESS RESILIENCE

At KSH INFRA, we define risks as events that could potentially impact our ability to continuously create value for stakeholders. In order to execute our strategy effectively, we respond swiftly to both opportunities and associated risks, while safeguarding the interests of stakeholders. Effective risk management allows us to anticipate and respond to changes in our operating environment and make informed decisions amidst uncertainties.

We adhere to an enterprise-wide approach to risk management, ensuring that all material risks are systematically captured and addressed. Our Enterprise Risk Management (ERM) framework enables us to identify, assess, mitigate and monitor risks across various aspects of our business, including operations, compliance, strategy, finances, governance, reputation, and processes.

Our Risk Management Committee comprises of: Two Directors, the Chief Executive Officer, the Chief Financial Officer, and the Chief Operating Officer. They oversee this process and periodically review the risk management plan.

KEY RISKS AND MITIGATION STRATEGIES

ENVIRONMENTAL RISKS

- Addressing climate-related risks involves mitigating acute and chronic water shortages. We implement water conservation strategies such as utilizing low-flow fixtures, rainwater harvesting, and incorporating recycled water usage.
- To address flooding risks, we conduct flood analysis during the technical due diligence phase of new land acquisition. This analysis enables us to design and develop flood-resilient buildings and landscapes.
- Anticipating future scenarios similar to Covid-19, we've enacted robust emergency response and preparedness protocols to ensure adherence to hygiene and safety standards. Furthermore, a work-from-home policy has been established to accommodate our employees.

OPERATIONAL AND PROJECTS RISKS

- To tackle construction delays and project delivery issues, we implement business continuity plans, leveraging technology for progress monitoring and conducting cross-functional meetings with stakeholders to address obstacles.
- To combat labour shortages due to reverse migration, we offer on-site accommodation to minimize worker travel. Monthly motivational programs are conducted to enhance efficiency, and contractors must adhere strictly to KSH INFRA's hygiene and safety standards.

STRATEGIC AND REPUTATIONAL RISKS

- We focus on innovation in net-zero buildings and energy productivity within our Parks. We continuously enhance our Grade A facilities offering to uphold our market leadership and strengthen our position by offering amenities aligned with IGBC- Platinum certified buildings.

GOVERNANCE AND COMPLIANCE RISK

- We address procedural delays in project approvals by conducting thorough due diligence at the land acquisition stage and adhering to transparent processes in project development.

ECONOMIC RISK

- To address reduced demand for space, we offer customized built-to-suit solutions to customers, meeting their timeline requirements. We also utilize digital tools, technologies, and social media to enhance customer engagement and differentiate our products.
- To mitigate financial and fraud risks, we've established a robust financial delegation of authority and a comprehensive reporting system, integrating automated workflows. Our Enterprise Risk Management (ERM) framework helps counter fraud risks, alongside annual audits. We've also enlisted reputable financial accounting professionals to advise on corporate transactions, significant investments, and financing activities.

OPPORTUNITIES

GEOGRAPHIC EXPANSION AND BRAND GROWTH

- **Regional Expansion:** Exploit untapped potential by extending operations beyond Pune to other select cities.
- **Brand Presence:** Elevate KSH Infra to a Pan-India brand, enhancing nationwide recognition and presence.

POLICY AND ECONOMIC CLIMATE UTILIZATION

- **Make in India Initiative:** Leverage government investment-friendly policies and position India as an alternative to other manufacturing hubs.
- **Infrastructure Development:** Utilize the Government of India's focus on infrastructure and capital expenditure to bolster growth in manufacturing infrastructure; helping corporate setup their shop under the 'Opex' model.

SECTOR-SPECIFIC ADVANCEMENTS

- **Electric Vehicle (EV) Renewable Sector Growth:** Take advantage of government subsidies in the EV sector to expand or diversify business ventures.

MARKET DEMAND

- **Warehousing Demand:** Address India's increasing consumption needs by expanding warehousing infrastructure
- **Help multinationals** grow under the PLI scheme of the Government of India.

HUMAN RESOURCE AND TALENT

- **Workforce Dynamics:** With the growth of the Indian economy and manpower returning, tap into the rich human resources for business expansion.
- **Employment:** Respond to the demand for Industrial & Logistics infrastructure created by the government's job creation initiatives.

MATERIALITY ASSESMENT

At the genesis of our ESG journey, we engaged with a diverse group of stakeholders to identify and prioritize the material aspects of our sustainability and governance efforts. This process of materiality assessment is crucial to our ESG strategy as it ensures that we focus our efforts where they matter most to our stakeholders and our business.

KEY HIGHLIGHTS OF THE MATERIALITY ASSESSMENT:

01 **Stakeholder Inclusivity:** Our workshop brought together voices from across the spectrum of stakeholders.

02 **Prioritization of Issues:** Through open discussions and structured engagement, we identified key ESG issues.

03 **Alignment with Business Goals:** The material ESG issues were aligned with our strategic business objectives, ensuring that our ESG efforts drive both sustainable development and business success.

04 **Commitment to Action:** We have committed to actionable goals and transparent reporting on these material issues, integrating them into our operational and strategic decision-making process.

OUTCOME OF THE MATERIALITY ASSESSMENT:

- **Customized ESG Strategy:** The insights from exercise have led to a tailore-made ESG strategy that addresses the unique challenges and opportunities.
- **Transparent Reporting:** Material ESG issues will be the focus of our reporting, ensuring that our stakeholders are informed about the progress and challenges.
- **Continuous Engagement:** We are committed to ongoing stakeholder engagement to ensure our ESG strategy remains relevant and responsive.

CONCLUSION:

> Our materiality assessment has set the foundation for a robust and focused ESG strategy. It reflects KSH INFRA's commitment to not only understanding but also effectively managing the social and environmental impacts that are most significant to our stakeholders and our success.

STAKEHOLDER ENGAGEMENT

1. BROADENING PERSPECTIVES

Stakeholder involvement is vital to enriching our ESG journey. Engaging with a diverse range of stakeholders — from investors to local communities, from suppliers to occupiers, and from NGOs to governmental bodies — broadens our perspectives. It allows us to consider multiple viewpoints and understand the real-world impact of our operations.

2. DRIVING INNOVATION

By involving stakeholders in our ESG strategy, we can drive innovation and find synergistic solutions to complex challenges. Stakeholders often bring fresh ideas and alternative approaches to the table, which can lead to more effective, implementable and sustainable ESG practices.

3. ENHANCING CREDIBILITY

Transparent stakeholder involvement also enhances the credibility of our ESG initiatives. It demonstrates our commitment to accountability and shows that we are listening and responsive to the concerns and aspirations of those affected by our business.

4. IDENTIFYING RISKS & OPPORTUNITIES

Stakeholders can help us identify emerging risks and opportunities more quickly. This proactive approach to ESG issues can improve our resilience and ability to observe the 'unseen', thereby adapting to changing social and environmental conditions.

ESG PERFORMANCE DEEP DIVE

GOVERNANCE

We strongly believe that optimal governance is vital for organizations as it ensures transparency, accountability, and robust risk management. It helps foster stakeholder confidence, regulatory compliance, strategic decision-making, ethical conduct, and thus long-term sustainability.

LINKAGE WITH SDGS

HIGH PRIORITY MATERIAL TOPICS

04 05 10 06

We ensure that everyone working with us, including our employees and partners, shares alignment with our vision and mission and values. Our Quarterly Board Meetings play a crucial role in governance, decision-making, and ensuring that the board stays informed about the organization's progress and challenges.

Our board structure consists of a total of 6 Executive Directors, with 50% of them being female Directors. The board tenure is reviewed annually. Our employees are required to disclose any external directorships in writing before accepting an offer with KSH INFRA. Similarly, any acceptance of an external directorship during employment with KSH INFRA must receive approval from the relevant authorised person.

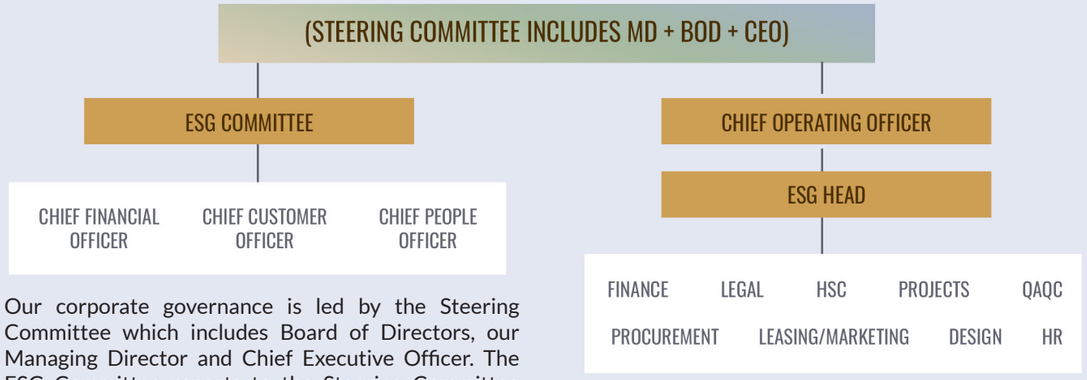
ANTI BRIBERY AND ANTI CORRUPTION:

We maintain a stringent commitment to anti-bribery and anti-corruption policies in our interactions with stakeholders, ensuring that all transactions involving parties are conducted with the utmost ethical standards and at arm's length. To date, there have been no reported incidents of such nature, reflecting our steadfast dedication to ethical conduct. We actively foster clear communication within our team by promoting information transparency. This ensures that all team members have access to relevant information, facilitating better collaboration and decision-making processes.

For KSH INFRA, working within applicable laws and regulations is not only a legal requirement but also a crucial aspect of business responsibility and sustainable business practices. Furthermore, there were no direct or indirect political contributions during the reporting period.

We are enhancing project reporting metrics and establishing new criteria to improve project monitoring effectiveness. The company is currently in the phase of identifying and incorporating an ERP system to improve data management, reporting, and monitoring capabilities.

GOVERNANCE FRAMEWORK



Our corporate governance is led by the Steering Committee which includes Board of Directors, our Managing Director and Chief Executive Officer. The ESG Committee reports to the Steering Committee along with our COO. ESG Committee oversees the strategic interventions. Our ESG head works closely with the COO and the ESG Committee ensuring effective implementation of ESG initiatives.

Our cross-functional leadership are responsible for the execution of ESG-related activities, ensuring that ESG principles are integrated into their specific functional roles as well.

This framework is designed to ensure that ESG considerations are integrated into every level of our organization, from strategic planning to day-to-day operations.

We are in the process of setting up systems of regular evaluations of sustainability initiatives, performance indicators, and reporting mechanisms to ensure continuous improvement and accountability.

GOVERNANCE

GRIEVANCE REDRESSAL

We at KSH INFRA, prioritize confidentiality and encourage employees, contractors, and stakeholders to report any Code of Conduct violations to the highest governance body via email at coc@kshinfra.com. Each reported concern is thoroughly investigated by the highest governance body, and a Grievances Committee case is established accordingly. The Grievances Committee follows the procedure outlined in the Code Of Conduct (COC) policy and takes necessary disciplinary action.

CODE OF CONDUCT

Through our Code of Conduct (COC) we foster a positive organizational culture, ensuring ethical behavior among our stakeholders.

KSH INFRA is committed to and strives to act honestly and with integrity in all its dealings. The Management believes that KSH's commitment to this code will maintain the confidence of KSH INFRA's key stakeholders in the company's integrity.

This code applies to all those associated with KSH Group which includes Directors of the Board, as well as all officers, employees, contractors, consultants, other persons who act for and on behalf KSH INFRA.

Any and all stakeholders are covered under this Code. Employees are required to refrain from engaging in decisions or activities that could potentially conflict with their duties and responsibilities at KSH INFRA. Additionally, they are prohibited from holding any office of profit in another company, business, or organization that could potentially pose a conflict of interest with KSH INFRA, unless prior approval is obtained from the Board.

POLICIES

At KSH INFRA, we recognize the importance of policies as they offer guidance, consistency, compliance, risk management, employee direction, cultural reinforcement, and accountability, all of which contribute to the effective governance of the organization.

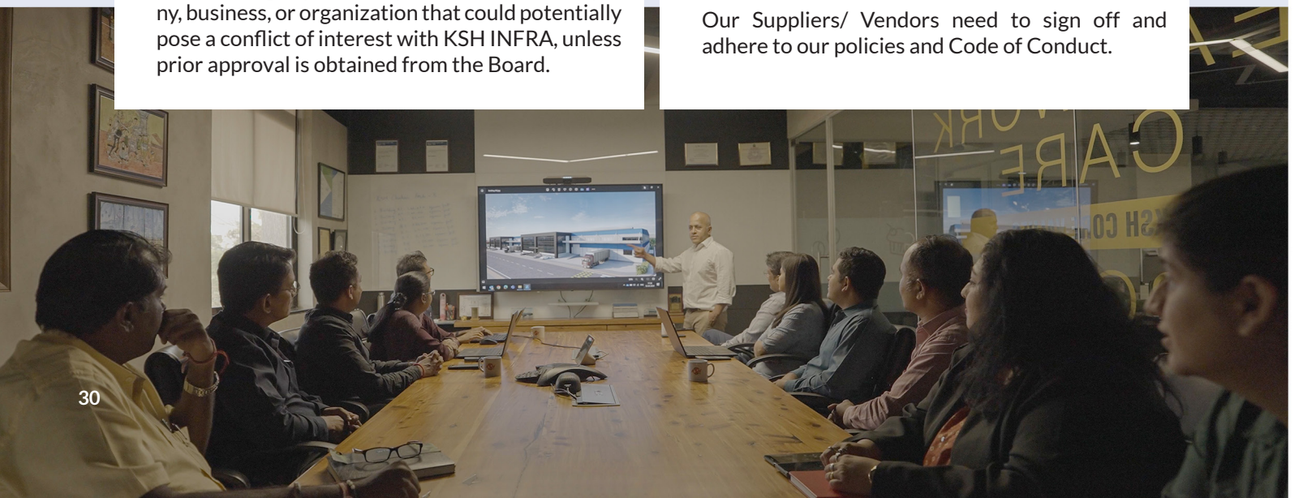
Annual training is given to all the employees on the below mentioned policies. Our policies are revised periodically.

- Sustainability Policy
- Communication Policy
- POSH Policy
- Travel and Reimbursements Policy
- Anti Bribery and Anti Corruption Policy
- Celebration Policy
- Work from Home Policy
- HR Manual / Policy
- Child Labor Policy, Bonded Labor Policy
- Stakeholder Management Policy
- EHS Policy

SUPPLY CHAIN

We actively promote the engagement of local vendors, particularly those from the district where we operate. For our Chakan Park II project, upto 37% of the material was purchased from local suppliers/ Vendors.

Our Suppliers/ Vendors need to sign off and adhere to our policies and Code of Conduct.



ENVIRONMENTAL

At KSH INFRA, we recognize the environmental impact of development and believe in taking substantial measures to alleviate it. Our commitment to sustainability is reflected in our adherence to green building guidlines such as EDGE and IGBC. This initiative extends beyond our structure itself to include sites, community planning and land use.

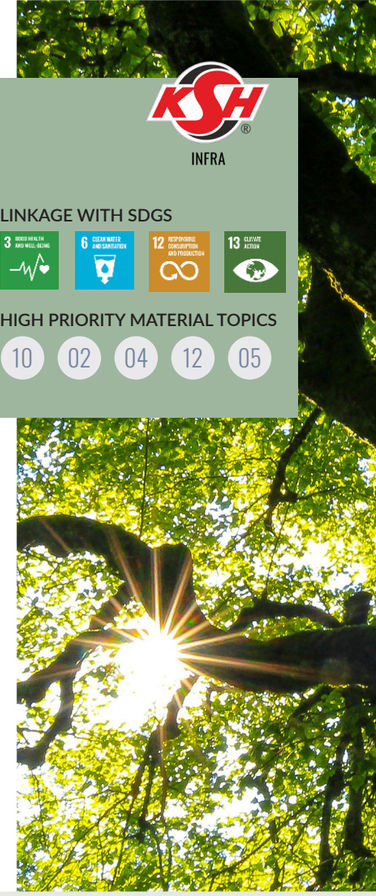
10 02 04 12 05



The journey began with our Chakan Park II project in 2019, where we pursued EDGE Certification, aligning with the project's timeline until its completion in 2022. Subsequently, the Chakan Park III project in 2022 embraced the IGBC Platinum Pre-Certification, despite facing challenges in acquiring specific products with extended lead times.

To ensure future projects align with our sustainability goals, we've committed to IGBC Platinum Pre-Certification for all our Parks. We engaged consultants for EDGE and IGBC Platinum Pre-Certification, receiving guidance on designing and planning aspects of our Parks.

Our dedication to environmentally conscious development continues to shape our thought process and actions.

HERE'S HOW WE DID IT

TREE PLANTATION BY KSH INFRA TEAM

WASTE RECYCLING DURING CONSTRUCTION

CHAKAN PARK II PROJECT

5 BUILDINGS
EDGE CERTIFIED

1.2 Mn. sq. ft.
TOTAL EDGE CERTIFIED AREA

More than. 30% Energy savings

Water savings

More than. 55%

More than. 65% Less Embodied Energy used

ENVIRONMENTAL

This assessment covers our recently completed Chakan Park II project's environmental impact during the construction phase.

ENERGY

2,78,797 KWH
Total Electricity consumption

0.23 KWH/SQ FT
Energy Intensity

We understand that prioritizing energy efficiency in construction is imperative for various reasons.

REDUCTION INITIATIVES

- Energy efficient equipment procurement
- Incorporation of energy efficiency features in the building design and operation phase
- Roof designed for rooftop solar panels

EMISSION

Emission reduction in construction is vital for addressing climate change and public health.

Emissions under Scope 1 and 2 are not applicable to us as the operations are by our contractors.

We have started the process of capturing and analyzing data for Scope 3 emissions.

38,401 tCO2e

Scope 3

Cat 1. Purchased goods and services
Cat 3. Fuel and energy related activities
Not included in Scope 1 and Scope 2
Cat 4. Upstream Transportation
Cat 7. Employee commute

REDUCTION INITIATIVES

- Local Procurement

WATER

38,233 KL
Water withdrawal

10,950 KL
Water reused for landscaping and domestic purposes

We prioritize assessing water-related risks, implementing mitigation strategies, and addressing water scarcity for all stakeholders.

REDUCTION INITIATIVES

- Water Efficient Features
- Rainwater harvesting pits
- Sewage Treatment plant
- Preserving existing openwell

WASTE

20% Reused

80% Recycled
(To authorized waste recyclers)
Steel, Paper and Cardbord and Plastic

Improper handling and disposal of construction waste can lead to environmental pollution, habitat destruction, and resource depletion.

REDUCTION INITIATIVES

- Meticulously planning every aspect to minimize waste generation

Note - Data reported has limited information, we are establishing process of capturing required relevant information.

ENVIRONMENTAL

MATERIALS

10%
Cement replaced with Fly Ash for concreting

100%
Clay red bricks replaced by Fly Ash bricks

Our main materials used for this project were: Steel (885 Ton), Cement (7,788 Ton), Sand (8,567 Ton) and Aggregate (12,305 Ton). Going forward, we intend to increase the percentage of recycled materials used at our sites.

REDUCTION INITIATIVES

- Replacing cement with Fly Ash.
- During the construction of internal roadwork, we were mindful of conserving natural resources.
- As a sustainable approach, we utilized stone that was excavated during the foundation for internal road construction.
- We also used PEB steel (4,166 Ton) for cost-effectiveness, customization, and sustainability.

Excellence In Design For Greater Efficiencies
Edge

These results achieved through EDGE certifications for 5 different buildings within our Chakan Park II project.

BUILDING A1 EDGE ADVANCED	BUILDING A2 EDGE ADVANCED	BUILDING A3	BUILDING B1	BUILDING B2
47% Energy Savings	47% Energy Savings	29% Energy Savings	30% Energy Savings	29% Energy Savings
55% Water Savings	59% Water Savings	59% Water Savings	59% Water Savings	60% Water Savings
66% Less embodied Energy in materials	65% Less embodied Energy in materials	65% Less embodied Energy in materials	66% Less embodied Energy in materials	66% Less embodied Energy in materials

ENVIRONMENTAL

Over a period of time (2015-2022), we have evolved from Edge Certification (Chakan Park II) to IGBC Platinum Certification (Chakan Park III)- thereby showcasing our resolve to constantly improve.

This is the action plan for our Chakan Park III project though IGBC Platinum Certification.

HEALTH & WELL-BEING	ENERGY EFFICIENCY	WATER EFFICIENCY	REDUCE USE OF FOSSIL FUELS	MATERIAL AND WASTE REDUCTION
90% HEALTH COMFORT	30% ENERGY SAVINGS	40% WATER SAVINGS	60% EMISSION REDUCTION	90% WASTE REDUCTION
Emphasizes on fresh air, ventilation, daylight and occupant comfort to create healthier, more productive indoor environments.	Focusses on optimizing building energy performance, minimizing environmental impact, promoting cleaning and renewable energy sources.	Emphasizes practices and technologies to reduce water consumption and promote sustainable water management in buildings.	Emphasizes on mitigating climate change and promoting environmental sustainability.	Emphasizes on responsible material selection waste reduction and sustainable practices throughout a building life cycle.
› No smoking Policy › Fresh Air Ventilation › Daylighting › Basic Amenities for Staff & Drivers › Facilities for Construction	› Building envelope › LED Lighting › Lighting Control › Star rated Pumps, Motors, Diesel Generator & Transformers › 100% monitoring through sub-metering	› Rainwater Harvesting › Water efficient plumbing fixtures › Waste Water Treatment and Reuse › Water Metering	› Promoting Electric Vehicles › Transition to Renewable Energy › Promoting Public Transportation › Use of Alternative Fuels › Bicycle and Walking Infrastructure	› Waste Segregation › Organic Waste Management › Eco-labelled Materials › Green Procurement Policy › Reduce use of Virgin Materials

Celebrating the contributions and achievements of our dedicated women workforce at the construction site.

SOCIAL

ABOUT EMPLOYEES

Employees are essential to an organization's success, driving productivity, innovation, and growth. They represent the company's values and culture to customers and stakeholders. Investing in their development, well-being, and engagement is crucial for a positive work environment and achieving organizational objectives. We understand that, recognizing the importance of employees leads to higher morale, retention, and dedication towards work.

LINKAGE WITH SDGS

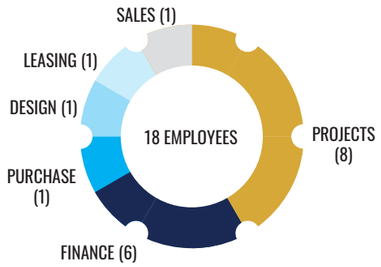
HIGH PRIORITY MATERIAL TOPICS

03 04 10 12

Our total number of onroll employees for this period was 18. All are on payroll and 4 individuals employed on a contract or part-time basis.

Our attrition rate stands at 0%. For every new project hereon 10 people will be added per Mn. sq. ft..

Net Attrition-Voluntary only not forced attrition



WHAT WE DO FOR OUR EMPLOYEES

COMPREHENSIVE MEDICAL INSURANCE/HEALTH PLAN:

Since the establishment of our company, this initiative has been integral, as we have consistently placed the safety and well-being of our employees as our top priority.

REWARD AND RECOGNITION PROGRAM:

The purpose of rewarding employees extends beyond mere recognition; it serves as a powerful catalyst for igniting motivation and driving sustained performance improvement. By consistently acknowledging the contributions of performance-driven individuals, we not only promote a collaborative environment that fosters teamwork but also elevate the overall value of the organization. Moreover, this concerted effort towards recognition helps to nurture a positive workplace culture where every member feels valued and empowered to achieve their fullest potential.

An employee being recognized by our Managing Director for outstanding performance at work.

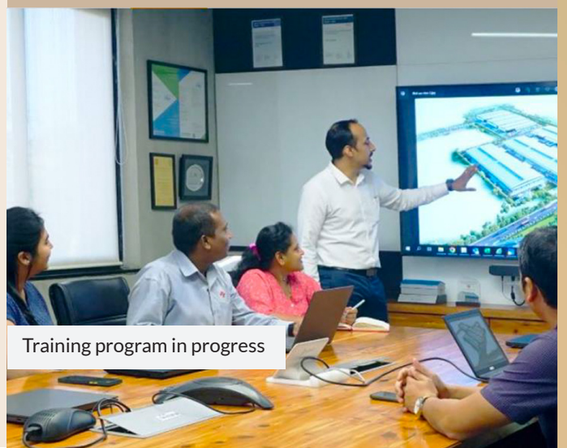
TRAINING AND DEVELOPMENT:

100% staff were given training:

- Planned Group Coaching Initiatives and Team Building Activities for Management Teams
- Average training hours: 7 hours per employee /year

List of training given to all of our employees:

- ESG
- Health and Safety
- Environmental
- POSH
- Tax Planning



Training program in progress

SOCIAL

EMPLOYEE ENGAGEMENT

GALLUP- SURVEY

The survey focusses on core business elements, serving as a benchmark for enhancing employee engagement levels and achieving organizational objectives.

Results showed that KSH INFRA is amongst the top 25% Indian companies in the real estate sector in the following areas:

LEARNING & GROWTH	MISSION & PURPOSE	DEVELOPMENT	MATERIAL & EQUIPMENT

EMPLOYEE BENEFITS:

We provide Mediclaim, accident and retirement benefits to all our permanent employees. Notice period across a large part of our employees is 2 months. We are paying well beyond local minimum wages to our permanent and temporary workforce.

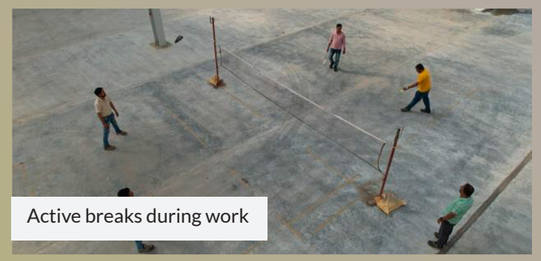
WELL-BEING:

To promote employee well-being, we organize structured outings and team-building exercises. Sports activities. These events are designed to foster camaraderie, enhance communication, and strengthen bonds among team members, ultimately contributing to a positive work environment.

DIVERSITY AND OPPORTUNITY:

- Our company has 10% women employees.
- The ratio of basic salary between male and female employees is 2.95.
- As of now, we do not have any specially abled employees.

KSH INFRA participation in Mumbai Marathon (TMM)



Active breaks during work

Traditional Day Celebrations

SOCIAL

Recognizing the significance of engaging the local community in our projects, we do prioritize providing more job opportunities to the local population, additionally without any discrimination of gender or caste.

This initiative commenced with the inception of KSH INFRA's first park construction in Chakan and continues to be an ongoing commitment. 2 of our senior management staff are from the local community.

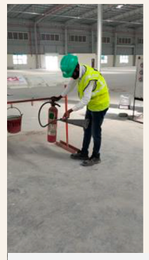
We are strictly against employing of child labor or forced labor. We have implemented stringent policies and procedures to ensure compliance with this principle. Additionally, there have been no reported incidents of discrimination or instances of collective bargaining at our project sites. It is important to note that there are no trade unions established at our project sites at present.

We ensure that our Security personnel are trained on Organization's policies and procedures concerning aspects of human rights, POSH Policy,Code of Conduct etc.

HEALTH AND SAFETY

At KSH INFRA, our commitment to environmental and occupational health and safety (EHS/OH&S) is steadfast across all facets of our operations, products, and services. We are dedicated to continuously enhancing our EHS and OH&S systems through rigorous risk analysis to prevent incidents and minimize pollution. Adhering to all relevant standards, we endeavor to eliminate hazards, mitigate risks, and fulfill compliance obligations. Our operations are governed by an integrated, structured, and well-documented management control system, fostering active involvement from all stakeholders, including our workforce.

Fire safety training Session in progress



Safety training for working at height

HEALTH AND SAFETY IN CONSTRUCTION

MORE THAN 1,500	People including our staff and contractors have been trained on EHS topics during our Chakan II project.
0	Fatalities, 33 First aid case
4,391+ TOOLBOX TALKS	Toolbox talks are informal group discussions centered around safety issues. They are conducted daily to foster a culture of safety within departments and initiate conversations about health and safety on job sites.
986	Unsafe act/conditions identified

HSE INSPECTION

We regularly monitor progress and review the checklist at specified intervals. Additionally, every six months, an external auditor conducts a comprehensive audit of all aspects.

SOCIAL

HSE PRACTICES

PRE-CONSTRUCTION STAGE

- Hazard identification and risk assessment
- Vendor evaluation on HSE parameters
- HSE manual
- HSE resource and infrastructure planning
- HSE visuals like posters, training materials
- Statutory compliances
- Kick-off meeting to explain HSE expectation to all

CONSTRUCTION STAGE

- HSE trainings to all employees and workers.
- Inspection and tagging of equipment', tools and machinery
- Medical check-ups for the workers
- Formation of Safety Committee and regular meetings
- Weekly safety walk, to identify the safety lag and corrective action
- Construction phase monitoring audit and third party HSE audit
- Work permit system
- Monitoring of the statutory compliance
- Motivational programme for workmen/ employee
- Management review
- Safety performance awards for contractors
- Conducting mock-drills
- Monitoring of labor colony set-up

POST-CONSTRUCTION STAGE

- Building handover to Facility Management (FM) teams, HSE training on operational aspects
- Green Certification (EDGE/IGBC)
- Conducting operation monitoring audit
- Management review

Our Hazard Identification and Risk Assessment (HIRA) policy includes comprehensive work-related activities. We have identified hazards, assessing the likelihood and severity of associated risks, prioritizing risks based on their level of significance, and implementing control measures to mitigate or eliminate the risks to acceptable level.

As part of our protocol, we maintain two emergency vehicles and always have first aid boxes available at multiple locations on site, considering the size of our workforce. In the event of any medical incident, employees are promptly transported to Chandrabhaga Hospital, which is located within 2 kilometers from the site and where we have requisite tie-ups.

PROMOTION OF WORKER HEALTH

During Induction detailed examinations is carried out. followed by weekly on-site doctor visit. Vaccination drives are organised as needed.

Tetanus Toxoid(TT) shots are given once a year.

KEY HEALTH AND SAFETY TRAINING TOPICS COVERED FOR EMPLOYEES AND CONTRACTORS

- Hazard identification and risk assessment
- Electrical safety
- Safety in excavation work
- Personnel Protective Equipment Program
- Behaviour-based safety workshop series
- Construction safety
- Safety in hot work

Work at height

- Manual handling

Work permit systems

- Occupational health and well-being
- Stress management

Road safety and defensive driving techniques

- HIV and AIDS
- Office safety and ergonomics
- Emergency preparedness and response
- First-aid and fire-fighting

CUSTOMERS

Customers are paramount to us, as their satisfaction and trust drive our commitment to providing sustainable infrastructure solutions. By understanding their needs and priorities, we deliver projects that not only meet but exceed expectations, ensuring long-term value and environmental stewardship.

A diverse mix of MNCs from across verticals such as Automobile, Automobile Ancillaries, Paper, Energy, Logistics, FMCG & many more have established their base at our facilities.

CSR VISION

LINKAGE WITH SDGS

Our CSR vision at KSH INFRA is to be a force for good in the world, embodying the principles of sustainability, fairness, and compassion in everything we do. Through strategic investments, partnerships, and advocacy, we strive to create lasting positive change that enhances the well-being of people and the planet.

WHAT WE DID:

- Food Distribution to Distant Villagers During Covid Times
- We donated a portion of our land to the community and undertook the construction of a temple for their benefit and use.
- We took the initiative to plant over 2,000 trees in the vicinity of our premises.
- Job Opportunities to the Local Population. This is an ongoing initiative that began when KSH INFRA started building their first park in Chakan

Activities by our Promoters are primarily managed through these two organizations:

MUDITA AN ALLIANCE FOR GIVING:

Scholarships for higher education to underprivileged students, support special education, cover medical costs for cancer and eye care, and offer food security through 'Annadaan' for orphanages and homes in Pune and Satara.

PARIJAT FOUNDATION:

Collaboration with local organizations to facilitate expressive Kathak dance for elderly Parkinson's patients and funds education for underprivileged children in Maharashtra.

KSH INFRA is one of the main donors to the Mudita Team organizing food distribution for the elderly in Pune.

The intent is that no person should have to sleep on an empty stomach. The senior citizens who cannot provide for themselves, either directly approach the Mudita members or someone on their behalf alerts for help.

This event was organized in a hospital where apart from food distribution, the elderly were also provided with some medical supplies. Each person was provided with an equal amount of raw food items that would help them sustain for the entire month.

From insightful ideation to thought-provoking discussions, the energy in the Laptop Distribution Event organized by the Mudita Foundation was palpable. Students had travelled from outside of Pune just to collect the laptops which would aid them in their final year of education and prepare them for the corporate world.

It was particularly gratifying to see that the students valued the activity, and ensured they completed entire paperwork, before calling it a day. They even enquired for online sessions to prep for job interviews.

As part of our social initiative, we obtained this arch from MIDC for development and Beautification of MIDC Chakan Phase-II. We have adorned the concrete structure with plaster, paint, and branding, adhering to MIDC guidelines. The branding features the MIDC logo, KSH Group logo, and directional markings on the arch.

As a social initiative, we acquired the KSH circle near Mapletree Park-1 (previously called KSH Chakan park I) from MIDC.

Given the dilapidated state of the previous structure, implementing a roundabout at that location became imperative to alleviate traffic congestion. We commissioned the current design, which includes the KSH Group logo on both sides, along with landscaping and lighting.

Since then, it has been known as the KSH circle!

LOOKING AHEAD

WAY FORWARD

E

Green Building Certification
We will continue to ensure all our projects achieve Green Building Certification, reinforcing our dedication to environmentally conscious construction.

Strengthen Climate Action
We aim to reduce our carbon footprint by expanding solar power installations to cover all common areas thereby reducing our reliance on non-renewable energy sources and installing energy-efficient light fittings reducing electricity consumption.

Greywater Utilization
We aim to achieve 100% utilization of greywater for flushing and gardening purposes, promoting water conservation and sustainability.

Structural Provisions
We will incorporate structural load provisions for solar panel installations in all buildings, ensuring readiness for renewable energy integration.

S

Safety and Well-being
We will continue to diligently maintain processes that ensure zero cases of serious work-related injuries, prioritizing the safety and well-being of our employees

G

Policy Alignment
We focus on the implementation of policies that align with industry best practices, ensuring our operations remain at the forefront of sustainability.

Training and Development
We will increase training hours, particularly in POSH, Ethics and other key areas, to empower our workforce with the knowledge and skills needed for sustainable practices.

As representatives of KSH INFRA we stand united in our dedication to environmental stewardship, social responsibility, and ethical governance. Through our daily actions and decisions, we strive to contribute positively to our planet, support our communities, and uphold the highest standards of integrity and transparency. Together, we embrace the journey towards a sustainable future, knowing that our efforts today will shape the world of tomorrow.!
