DRIVING TRANSFORMATION IN INDIA'S INDUSTRIAL SUPPLY CHAIN

We have over the past 10 years played an active role in transforming the logistics and industrial landscape in Pune region, having a portfolio of 4 million square feet in industrial hubs like Chakan & Talegaon under various stages of development.

We have created a modern A-Grade infrastructure and given our multinational clients the option of moving into Ready Built Factories / Warehouses, or a Built-to-Suit (BTS) facility technically designed to cater to their specific requirements.

Having an in-house design and execution team, with extensive domain knowledge, our gamut of services range from designing MEP, HVAC, Fire, Sewage Treatment Plants, Effluent Treatment Plants, Cold Rooms, Labs, etc.

KSH INFRA TIMELINE

2024
KSH INFRA's new park, Chakan Park 4 construction commenced at Shinde near Chakan.

2023
Chakan Park 3 commenced in Varale in 2023, covering approximately 1.5 square meters our first project in joint venture with Indospace.

2022
KSH INFRA successfully built, leased and exited its project admeasuring 1.2 Milllion sq. ft. t o Mapletree Investments, Singapore

2022
KSH INFRA partnered with Indospace Capital to invest INR 1000 Crores in a joint venture (JV) and commenced construction on its first project under the JV of 1.6 Million sq. ft. with an aim to develop 10 Million sq. ft. across key markets in India

2012
Investment received from Pacific Century Group of UK/Singapore to expand KSH Logistics, KSH Distriparks and set up 'KSH INFRA' to expand into the INFRA space

2018
KSH Group celebrated its Golden Jubilee year and expressed their gratitude to Bosch for having played a leading role in growth story

2019
Established two projects under 'KSH INFRA' admeasuring 1 Million sq. ft. and successfully exited the projects to Morgan Stanley Investment Fund, USA

A GROWING NETWORK OF WORLD CLASS INDUSTRIAL FACILITIES

KSH INFRA has created several industrial parks across Pune's industrial hubs with many more planned throughout India.

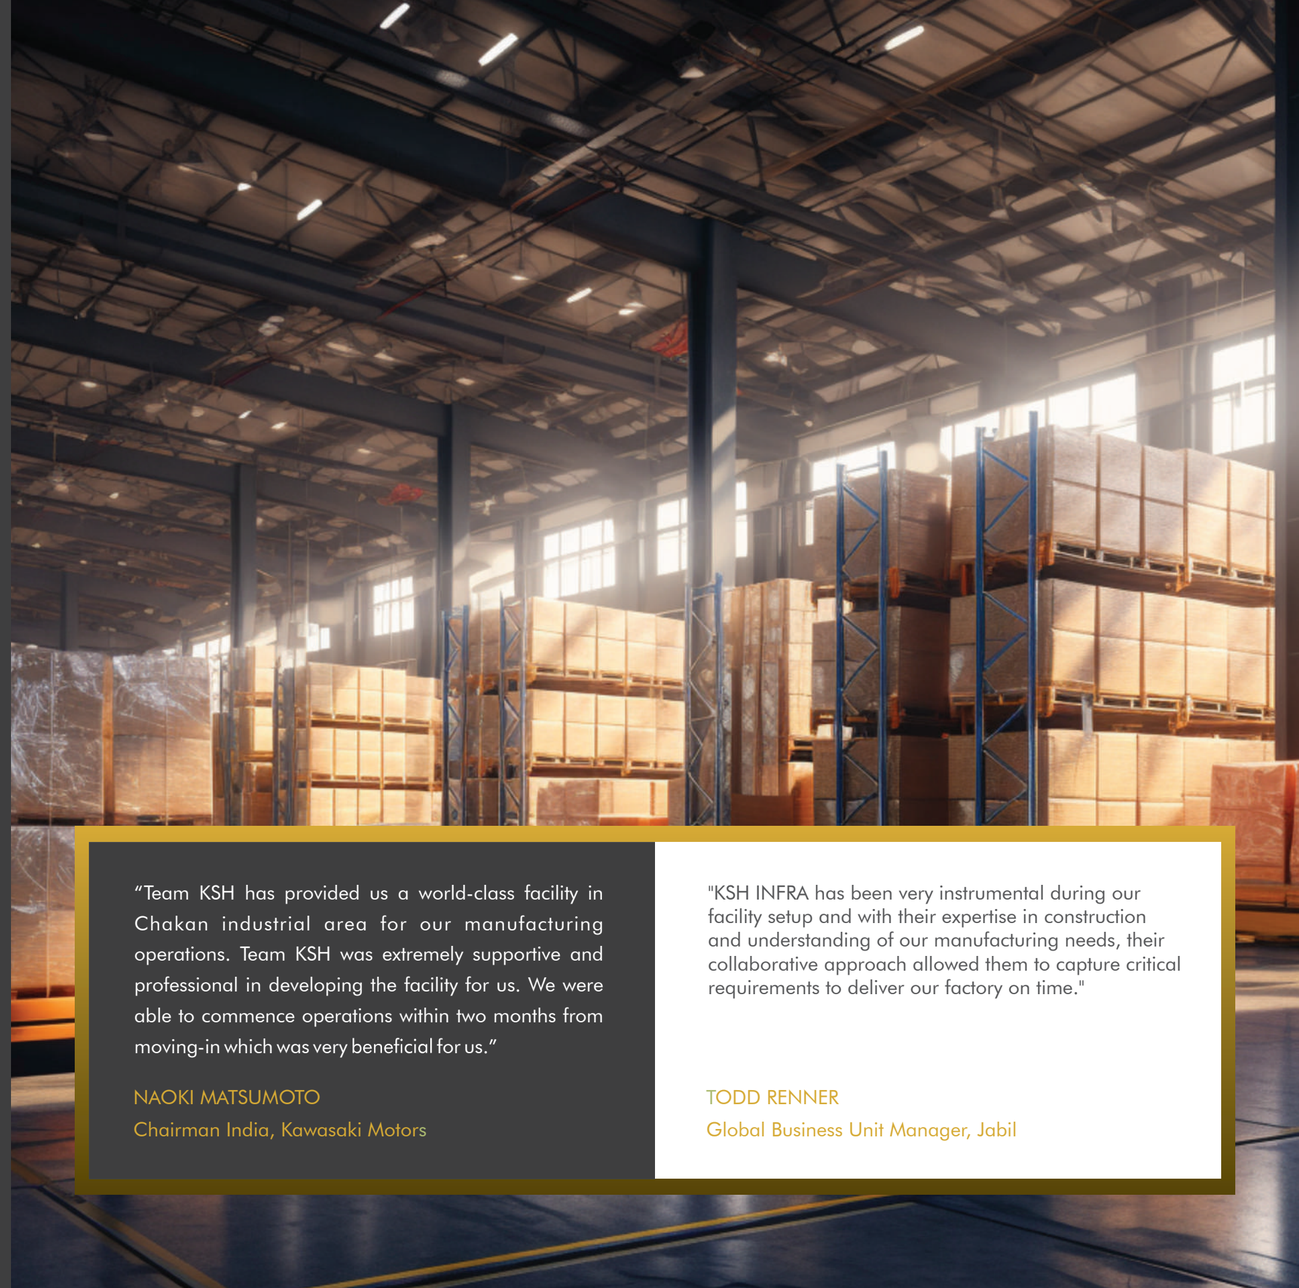
(under development)



"Team KSH has provided us a world-class facility in Chakan industrial area for our manufacturing operations. Team KSH was extremely supportive and professional in developing the facility for us. We were able to commence operations within two months from moving-in which was very beneficial for us."

NAOKI MATSUMOTO
Chairman India, Kawasaki Motors

"KSH INFRA has been very instrumental during our facility setup and with their expertise in construction and understanding of our manufacturing needs, their collaborative approach allowed them to capture critical requirements to deliver our factory on time."

TODD RENNER
Global Business Unit Manager, Jabil

KSH INFRA'S
DESIGN-TO-DELIVERY METHODOLOGY

PRE-PROJECT MANAGEMENT

- Preliminary survey and site assessment
- Preliminary planning
- Technology assessment
- Feasibility study and project report

PROJECT MANAGEMENT

- Project planning, scheduling & control
- Budgetary and cost control
- Intra-team communication management
- Safety management
- Liaison with statutory authorities

INSPECTION & EXPEDITING

- Vendor appraisal
- Stage-wise inspection
- Final inspection
- Expediting deliveries

COMMISSIONING SUPPORT

- As-built documentation
- Training of owner's personnel
- Troubleshooting

CHAKAN PARK 4, PUNE

OVERVIEW

Total Park Area
15.1 Acres | 61, 466 sq.m. | 6,61,620 sq.ft.

Total Chargeable Area
34,185.34 sq.m. | 3,67,968 sq.ft

Development Type
Industrial | Warehousing

FACILITIES & AMENITIES

- MS Gate, Boom Barrier
- 24 X 7 manned Security Gate
- Security - CCTV only for common areas
- Truck Parking Areas
- 2/4 wheeler visitor parking
- EV Charging station for 2/ 4 wheeler
- Park Level - Sewage Treatment Plant
- Organic waste convertor
- Rainwater Harvesting
- Solar Optionality
- Landscaping
- Driver Rest Area
- Fire protection system as FM / NBC standards

CHAKAN

Chakan in Pune is perhaps the most integrated industrial neighbourhood in the entire country. Home to some of the largest auto manufacturers such as Volkswagen, Bajaj Auto, Mercedes Benz and Hyundai Construction, the location has attracted engineering talent in abundance. A healthy diaspora of talented individuals from across India and from far corners of the globe, makes Chakan a preferred destination for auto makers and other diverse industries alike. The region will soon be connected with the metro line, and has a diverse social infrastructure that is at various stages of development. In the coming years we will see large scale infrastructure development along the KHED SEZ on one side and expansion of the Talegaon industrial belt on the other. Well connected and well designed, Chakan will continue to attract some of the largest industries in the years to come.

LOCATION ADVANTAGE

KSH Parks are located in close proximity to the industrial belt of Pune, Pimpri-Chinchwad, Chakan and Ranjangaon.

Talegaon MIDC Mubai - Pune Expressway

Pune City	40.1Km
Pune Airport	39.7 Km

LOCATION MAP

OUR PARKS ARE STRATEGICALLY BUILT TO CATER TO EVERY DETAIL THAT YOU DESIRE

TECHNICAL SPECIFICATIONS

Structure

Foundations	All foundations will be open type RCC with RCC columns up to plinth level
Super-structure	The super-structure will be designed as a Pre-Engineered Building (PEB)
Plinth Height	1.2 m from finished road level
Walls	230mm thick fly ash brick wall up to height of 3.0m from FFL, plastered and painted
External Plastering and Painting	Sand faced plaster with apex or equivalent paint
Internal Plastering and Painting	Neeru finish plaster with OBD

PEB

Frame type	Steel portal
Eave Height	9.20m clear above FFL
Interior column spacing	Building -A1: 15.30m x 25.51m Building-A2: 15.00m x 20.23m
Roof slope	1:20
Bay spacing	Building A1: 7.65m c/c Building A2: 7.50 m c/c
End Frames	Non expandable rigid frame with gable columns at both ends.
Roof Sheeting	Standing seam roof with 0.5mm thick GA Bare Galvalume
Wall Cladding	Bare Galvalume Color Coated
Downspouts	Galvalume downspouts from eave to canopy gutter
Steel Lintel Beam	Considered above brick work on entire periphery of the building at 3.00m from FFL
Canopy	6.0m running canopy along length of docking area
Cage Ladder	Provided to access roof at 2 locations for each building
Skylights	Polycarbonate sheet for natural lighting

Doors

Dock Door Type	Manual rolling shutter
Fire Safety Doors	2-hour fire rated doors with panic bar

Windows

Fixed Windows	5mm thick clear float glass or 2mm thick polycarbonate sheet for natural light

Flooring

Type	VDF Tremix flooring with anti-termite treatment
Capacity	6 to 8 ton/ Sq. meter

Electricals

Power	As per client requirement
Internal Lighting	150 to 200 lux level considered for shop floor
External Lighting	15 LUX level for considered for exterior dock lighting for truck well apron considered

FHS

Fire exit doors	2 hours fire rated doors of approved make considered
Fire Protection Systems (Internal)	Sprinkler based system with hose reels and fire extinguishers considered as per NBC standards
Fire Protection Systems (External)	Fire hydrant systems with hydrant posts and water tank and pump room as per NBC standards
Fire Alarm Systems	Fire alarm and smoke detection systems as per NBC standards
Pumps	As per fire NOC

Water

Water Supply	Bore wells

Roads

Internal Roads	12m wide bitumen/concrete roads considered

PARK INFRASTRUCTURE

ROADS >>
15m wide bitumen roads for easy maneuverability of trucks

SECURITY FENCING >>
Compound wall with fencing along the park perimeter

ENTRANCE GATES >>
Motorised gates with boom barriers for entry and exit of park

DG BACKUP >>
100% back-up for external lighting and common services

CCTV SYSTEM >>
CCTV system throughout the park for monitoring and enhancing park security

SIGNAGE >>
External and internal signage via pylons and directional signage for navigation

SUSTAINABILITY >>
Rainwater harvesting
Landscaping in common areas
Recycling of water using STP

WATER & SANITARY SYSTEM >>
Storm water drains throughout the park to avoid flooding
STP of suitable capacity to cater to the park
Underground water tanks with pipelines to each building
